

REGULATION 2.08 Fees

**Louisville Metro Air Pollution Control District
Jefferson County, Kentucky**

Pursuant to: KRS Chapter 77 Air Pollution Control

Relates to: KRS 77.195 and 77.205; 42 USC 7661a

Necessity and Function: KRS Chapter 77 authorizes the Air Pollution Control Board to adopt and enforce all orders, rules, and regulations necessary or proper to accomplish the purposes of KRS Chapter 77, including establishing fees. This regulation establishes emissions fees required by Title V of the Clean Air Act, 42 USC 7661 *et seq.*, permit fees, and additional program fees.

SECTION 1 General Provisions

1.1 The fees listed in this regulation apply to Fiscal Year (FY) 2013 (July 1, 2012, to June 30, 2013) except those fees listed in Section 12, which apply to all stationary sources beginning in FY 2014 (July 1, 2013 to June 30, 2014) and thereafter.

1.2 Each fiscal year, the fee rate for the previous fiscal year shall be adjusted by the sum of 1 plus the fractional change in the annual Consumer Price Index (CPI) as most recently published by the EPA, available at www.epa.gov/air/oaqps/permits/fees.html. The District shall make available, at the beginning of each fiscal year, a list of the fees applicable to that fiscal year.

1.3 The District shall issue a statement of fees from the date the most recent permit expired through the end of FY 2013 to a stationary source operating pursuant to an application shield under Regulation 2.17 or authorized to continue operating in compliance with the latest minor source operating permit issued by the District. Stationary sources that are determined by the District pursuant to Regulation 2.02 section 2.3 to be exempt are not subject to this provision.

1.4 Fees for permits to construct or modify, an initial, or renewing authorization to operate, or permits for Asbestos Demolition/Renovation Projects shall be paid prior to issuance.

1.5 Fees for construction permits and first-issue and renewing operating permits issued in FY 2013 shall be prorated to one year. Thereafter, annual fees shall be assessed pursuant to the schedule of fees in Section 12.

1.6 Minor sources constructing in FY 2013 shall pay the applicable construction permit fee listed in Section 4 of this regulation prior to the issuance of a combined construction operating permit.

1.7 Beginning in FY 2014, the District shall issue an annual statement of fees to stationary sources authorized to operate in Louisville-Metro Jefferson County pursuant to Section 12.

1.8 Payment of fees for the Strategic Toxic Air Reduction (STAR) and Risk Management Plan (RMP) programs, operating permits, emissions fees, and the fees in section 1.3 are due within 45 days of the billing date. The District may approve an installment schedule of payments.

1.8.1 Failure to pay an applicable fee when due is a violation of District regulations.

[If adopted, this would amend the November 16, 2011, version of Regulation 2.08.]

[Approved by the Policy Committee on February 20, 2013, for Public Review]

[Changes to Draft #2 are redlined and double underlined]

- 44 1.8.2 Stationary sources failing to pay fees may be subject to penalties and an increase in
45 the fee of an additional 5% per month up to a maximum of 25% over the original
46 amount due.
- 47 1.8.3 Failure to pay emissions fees within 60 days of the due date shall automatically
48 suspend the stationary source's authorization to operate until the fees are paid or the
49 District has approved a payment schedule in writing.
- 50 1.9 The fiscal year used for determining the applicable permit fee is as follows:
- 51 1.9.1 For construction permits, permit transfers, and asbestos demolition/renovation
52 permits, the fiscal year in which the permit is issued,
- 53 1.9.2 For first-issue minor source operating permits, the fiscal year in which the
54 construction permit expires and is not renewed pursuant to section 4.5,
- 55 1.9.3 For first-issue federally enforceable District-origin operating permits (FEDOOPs), the
56 fiscal year in which construction or minor source operating expires and is not
57 renewed, and
- 58 1.9.4 For renewal operating permits, the fiscal year in which the previous operating permit
59 expires.
- 60 1.10 Operating permit fees for non-Title V stationary sources are based on potential to emit for
61 the entire stationary source.
- 62 1.11 The District may, at its discretion, adjust the term of an individual permit to conform with its
63 inspection schedules of stationary sources or to aid in program implementation.
- 64

65 **SECTION 2 Title V Emissions Fees**

- 66 2.1 Applicability. Annual emissions fees are required from all major sources subject to the
67 operating permit requirements of Regulation 2.16.
- 68 2.2 Emissions fees shall be calculated based on the actual emissions of the following
69 pollutants: sulfur dioxide (SO₂), nitrogen oxides (NO_x), PM₁₀, PM condensables, volatile
70 organic compounds (VOCs), and hazardous air pollutants (HAPs), from the stationary
71 source for the calendar year (CY) preceding the start of the fiscal year in which the fee is
72 due.
- 73 2.3 Emissions fees shall be calculated by multiplying the total of all the single pollutant
74 actual emissions in tons per year (tpy) for CY 2011 by the fee rate of \$50.10 per ton.
- 75 2.4 The total annual emissions fee shall be the sum of the single pollutant fees except that:
- 76 2.4.1 No pollutant shall be counted in more than one single pollutant category,
- 77 2.4.2 No more than 4,000 tpy of the actual emissions of a single pollutant shall be counted
78 toward the total emissions of a stationary source.
- 79 ~~2.4.3 Emissions of carbon monoxide and greenhouse gases (GHGs) subject to regulation~~
80 ~~pursuant to Regulation 2.16 shall not be counted toward the total emissions.~~
- 81 2.5 Emissions statements are required to be submitted annually in accordance with
82 Regulation 1.06. If data for the preceding year are not submitted, the District shall
83 determine the fees based on potential to emit.
- 84

85 **SECTION 3 Filing Application and Banking Permit Fees**

- 86 3.1 Applicability. Stationary sources in Louisville Metro shall pay a filing application fee to
87 the District in accordance with Regulations 2.02 and 2.03, 2.16, and 2.17.

[If adopted, this would amend the November 16, 2011, version of Regulation 2.08.]

[Approved by the Policy Committee on February 20, 2013, for Public Review]

[Changes to Draft #2 are redlined and double underlined]

3.2 Filing Application fees shall be paid at the time an application is submitted to the District as follows:

3.2.1	Minor and Registered sources	\$500
3.2.2	FEDOOP construction or operating permit	\$750
3.2.3	Title V construction or operating permit	\$1,000
3.3	An existing stationary source permitted pursuant to Regulation 2.03 shall not be required to pay a <u>n-application-filing</u> application fee if <u>later</u> -authorized as an exempt stationary source pursuant to Regulation 2.02.	
3.4	Banking Permit (issuance or reissuance with modification, no renewal required.)	
	\$596

SECTION 4 Construction Permit Fees

4.1 Applicability. This section applies to each stationary source constructed in Jefferson County—Louisville—Metro. Permit fees (except permit transfers, asbestos demolition/renovation permits, and stationary sources exempt in accordance with Regulation 2.02 or registered in accordance with Regulation 2.03) shall be based on the pollutant that has the largest potential to emit and are on a per permit basis.

4.2 Construction permit fees are based on potential to emit for the total project.

4.3 The fee for each permit shall be determined as follows:

4.3.1	Subject to Federal PSD/NSR (includes "net-outs," "offsets," and other exemptions, or subject to NSPS or NESHAPs)	\$8,357
4.3.2	100 tpy or more, the basic fee is	\$5,571
4.3.2.1	Subject to NSPS, add to the basic fee	\$1,989
4.3.2.2	Subject to NESHAPs, add to the basic fee	\$1,989
4.3.3	Less than 100 tpy, but greater than or equal to 50 tpy, the basic fee is	\$3,383
4.3.3.1	Subject to NSPS, add to the basic fee	\$1,493
4.3.3.2	Subject to NESHAPs, add to the basic fee	\$1,493
4.3.4	Less than 50 tpy, but greater than or equal to 10 tpy, the basic fee is	\$1,294
4.3.4.1	Subject to NSPS, add to the basic fee	\$995
4.3.4.2	Subject to NESHAPs, add to the basic fee	\$972
4.3.5	New Stage II Gasoline Dispensing Facilities	\$2,890
4.3.6	Modified Stage II Gasoline Dispensing Facilities for which testing or retesting is necessary	\$1,154
4.3.7	Less than 10 tpy, but greater than or equal to 5 tpy, or Stage I Gasoline Dispensing Facilities of greater than 1000 gallon capacity, the basic fee is	\$995
4.3.7.1	Subject to NESHAPs or NSPS, add to the basic fee	\$498
4.3.8	Stage I Gasoline Dispensing Facilities of greater than 250 gallon capacity but less than or equal to 1000 gallon capacity	\$249
4.3.9	Less than 5 tpy and subject to NSPS or NESHAPs (except asbestos demolition/renovation projects subject to Section 7), the basic fee is	\$698
4.3.10	Less than 5 tpy and not subject to NSPS or NESHAPs	\$372
4.3.11	Permit transfers	\$99

[If adopted, this would amend the November 16, 2011, version of Regulation 2.08.]

[Approved by the Policy Committee on February 20, 2013, for Public Review]

[Changes to Draft #2 are redlined and double underlined]

4.4 If a source submits simultaneous applications for construction permits for two or more identical pieces of equipment at the same location, the fee shall be the same as that specified for one piece of equipment.

4.5 Construction permits may be renewed until the project is completed and the affected facility is in operation unless otherwise provided in Regulation 2.03. The construction permit renewal fee shall be \$894 or the applicable construction permit fee, whichever is greater

SECTION 5 Minor Source Operating Permit Fees

5.1 Applicability. Minor source operating permits are issued to stationary sources that are not subject to the emissions fees of Section 2 or the permit fees of Sections 6 and 7.

5.2 Minor source operating permits are valid until changes are made to the process operation equipment, the air pollution control equipment, or the pollutant emission rate increases. If changes are proposed, the owner or operator shall apply for the appropriate permits and any resulting permits shall be issued at full fee.

5.3 The fee for each minor source operating permit shall be determined as follows:

5.3.1 Reissuance of a permit for which the sole change is the name or address of the stationary source (this does not include change of owner or operator or relocation) . . . \$58

5.3.2 Greater than or equal to 100 tpy but not subject to the Title V program . . . \$1,543

5.3.3 Less than 100 tpy, but greater than or equal to 50 tpy, the basic fee is . . . \$618

5.3.4 Less than 50 tpy, but greater than or equal to 10 tpy, the basic fee is . . . \$465

5.3.5 Less than 10 tpy, but greater than or equal to 5 tpy, or Stage I Gasoline Dispensing Facilities, the basic fee is . . . \$306

5.3.6 Less than 5 tpy, the basic fee is . . . \$231

5.3.7 Gasoline Dispensing Facilities - Stage II, add to the Stage I fee per fueling position . . . \$246

5.3.8 Subject to NSPS, add to the applicable basic fee . . . \$79

5.3.9 Subject to NESHAPs, add to the applicable basic fee . . . \$79

5.3.10 Greater than 5 tpy of a single HAP or greater than 10 tpy of all HAPs combined, add to the applicable basic fee . . . \$79

5.3.11 Permit transfers . . . \$99

SECTION 6 Federally Enforceable District Origin Operating Permit (FEDOOP) Fees

6.1 Applicability. FEDOOPs are issued to stationary sources pursuant to Regulation 2.17 ~~Federally Enforceable District Origin Operating Permits.~~

6.2 Permit fees (except permit transfers and asbestos demolition/renovation permits) shall be based on the pollutant that has the largest potential to emit and are on a per permit basis.

6.3 The FEDOOP fee shall be the sum of the following:

6.3.1 Special processing fee (including cost of public notification) . . . \$618
and

6.3.2 The sum of the permit fees for all of the emissions units at the stationary source that

[If adopted, this would amend the November 16, 2011, version of Regulation 2.08.]

[Approved by the Policy Committee on February 20, 2013, for Public Review]

[Changes to Draft #2 are redlined and double underlined]

- 173 would normally be assessed pursuant to Section 5 if the stationary source had not
 174 applied for a FEDOOP.
 175 6.4 The fee for initial issuance of a FEDOOP shall be adjusted on a prorated basis to account
 176 for the unexpired term of any previously issued operating permits pursuant to Section 5.
 177 6.5 The fee for revision of a FEDOOP shall be the amount that would have been required by
 178 Section 4 or 5.
 179

180 **SECTION 7 Permits for Asbestos Demolition/Renovation Projects**

- 181 7.1 Applicability. The permit fee or notification fee for asbestos demolition/renovation
 182 projects shall be determined as follows:
 183 7.1.1 Friable asbestos demolition/renovation projects:
 184 7.1.1.1 The basic permit fee including the first 1500 linear or square feet \$797
 185 7.1.1.2 Add to the basic permit fee for each additional full or partial increment of 1500
 186 linear or square feet, up to a total of 5 increments \$797
 187 7.1.1.3 Add to the basic permit fee for each additional full or partial increment beyond
 188 the first 5 increments of 1500 linear or square feet \$177
 189 7.1.2 Friable asbestos demolition/renovation projects using glovebags:
 190 7.1.2.1 The basic permit fee including the first 1500 linear or square feet \$498
 191 7.1.2.2 Add to the basic permit fee for each additional full or partial increment of 1500
 192 linear or square feet \$498
 193 7.1.3 Category I and II asbestos demolition/renovation projects:
 194 7.1.3.1 The basic permit fee including the first 3,000 linear or square feet \$297
 195 7.1.3.2 Add to the basic permit fee for each additional full or partial increment of 3,000
 196 linear or square feet, up to a total of 100 increments \$297
 197 7.1.3.3 Add to the basic permit fee for each additional full or partial increment beyond
 198 the first 100 increments of 3,000 linear or square feet \$65
 199 7.1.4 Notification fee for all asbestos demolition/renovation projects for which the quantity
 200 involved is less than 260 linear feet on pipes and 160 square feet on other facility
 201 components, or 35 cubic feet of facility components if the length or area could not be
 202 measured previously. \$38
 203 7.1.5 Each address on a multiple-dwelling project shall be assessed a fee based on the
 204 criteria in sections 7.1.1 to 7.1.4.
 205 7.1.6 A single permit may be issued with any number of combinations of projects described
 206 in sections 7.1.1 to 7.1.4.
 207 7.1.7 If the project involves both a material that is measured in linear feet and a different
 208 material that is measured in square feet, the number of linear feet and square feet shall
 209 be added to determine the applicable fee.
 210 7.1.8 If approved by the District, the amount of material involved in a project may be
 211 determined in cubic feet. For the purpose of section 7.1.2, an increment shall be 330
 212 cubic feet. For the purpose of section 7.1.3, an increment shall be 660 cubic feet.
 213 7.1.9 The fee for a second and each subsequent revision to an issued permit for an asbestos
 214 demolition/renovation project shall be 10% of the fee for the initially issued permit.

[If adopted, this would amend the November 16, 2011, version of Regulation 2.08.]

[Approved by the Policy Committee on February 20, 2013, for Public Review]

[Changes to Draft #2 are redlined and double underlined]

- 215 7.1.10 Additional fee for each requested inspection or assistance provided outside of the
 216 District's working hours of 8:00 a.m. to 5:00 p.m. weekdays, on a weekend, or on a
 217 holiday. Requests shall be in writing and are subject to the District's approval . \$197
 218 7.1.11 Emergency permit fee \$25
 219

220 **SECTION 8 Plantwide Applicability Limit (PAL) Permits**

- 221 8.1 Applicability. Fees for PAL permits shall be:
 222 8.1.1 Initial PAL permit issuance\$8,357
 223 8.1.2 Annual PAL fee during the PAL permit effective period \$2,082
 224 8.1.3 Renewal of a PAL permit \$8,357
 225 8.1.4 Increasing a PAL during the PAL permit effective period \$8,357
 226

227 **SECTION 9 Review of Permit and Emissions Fees**

- 228 9.1 Permit fees may be reviewed by the Board in accordance with KRS 77.205.
 229 9.2 The Board may, by regulation, adjust the Title V emissions fee rate applicable to a fiscal
 230 year if the District recommends an adjusted fee rate based on the District's actual
 231 expenses incurred during the previous fiscal year, the District's projected expenses for
 232 the current fiscal year, and the total for all affected stationary sources of all single
 233 pollutant actual emissions for the previous calendar year.
 234 9.3 If the Board adjusts the Title V emissions fee rate applicable to a fiscal year, the new rate
 235 shall be retroactive to the previous July 1.
 236

237 **SECTION 10 Risk Management Plan Program Fees**

- 238 10.1 Applicability. Risk Management Plan (RMP) program fees are required annually from all
 239 stationary sources that are subject to the requirements of Regulation 5.15.
 240 10.2 The RMP program fees shall be based on the highest RMP program level for any process
 241 at the source. The RMP program fees for FY 2013 are:
 242 10.2.1 RMP Program 1\$723
 243 10.2.2 RMP Program 2\$1,250
 244 10.2.3 RMP Program 3\$2,647
 245

246 **SECTION 11 STAR Program Fees**

- 247 11.1 Applicability. Applies to Group 1 and 2 stationary sources as defined in Regulation 5.00.
 248 The STAR Program fees for Fiscal Year 2013 are:
 249 11.1.1 For a Group 1 stationary source, the sum of:
 250 11.1.1.1 \$5,691, plus
 251 11.1.1.2 \$208 per ton of actual emissions of HAPs and ammonia from the Group 1 source
 252 for calendar year 2010.
 253 11.1.2 For a Group 2 stationary source:
 254 11.1.2.1 \$566
 255

256 **SECTION 12 Schedule of Fees Beginning in FY 2014**

- 257 12.1 Applicability. The following schedule of fees applies to all stationary sources in
 258 beginning in FY 2014.

[If adopted, this would amend the November 16, 2011, version of Regulation 2.08.]

[Approved by the Policy Committee on February 20, 2013, for Public Review]

[Changes to Draft #2 are redlined and double underlined]

259 12.2 General Provisions.

260 12.2.1 Each fiscal year, the fee rate for the previous fiscal year shall be adjusted by the sum
261 of 1 plus the fractional change in the annual Consumer Price Index (CPI) as most
262 recently published by the EPA, available at
263 www.epa.gov/air/oaqps/permits/fees.html. The District shall make available, at the
264 beginning of each fiscal year, a list of the fees applicable to that fiscal year.

265 12.2.2 Fees for permits to construct, an initial or renewing authorization to operate, or
266 permits for Asbestos Demolition/Renovation Projects shall be paid prior to issuance.

267 12.2.3 The District shall issue an annual statement of fees to stationary sources authorized to
268 operate in Jefferson County.

269 12.2.4 Payment of fees for the Strategic Toxic Air Reduction (STAR) and Risk Management
270 Plan (RMP) programs, operating permits, and emissions fees are due within 45 days
271 of the billing date. The District may approve an installment schedule of payments.

272 12.2.4.1 Failure to pay an applicable fee when due is a violation of District regulations.

273 12.2.4.2 Stationary sources failing to pay fees may be subject to penalties and an increase
274 in the fee of an additional 5% per month up to a maximum of 25% over the
275 original amount due.

276 12.2.4.3 Failure to pay emissions fees within 60 days of the due date shall automatically
277 suspend the stationary source's authorization to operate until the fees are paid or
278 the District has approved a payment schedule in writing.

279 12.2.5 The fiscal year used for determining the applicable permit fee is as follows:

280 12.2.5.1 For construction permits, permit transfers, and asbestos demolition/renovation
281 permits, the fiscal year in which the permit is issued,

282 12.2.5.2 For first-issue federally enforceable District-origin operating permits (FEDOOPs),
283 the fiscal year in which construction or minor source operating expires and is not
284 renewed, and

285 12.2.5.3 For renewal operating permits, the fiscal year in which the previous operating
286 permit expires.

287 12.2.6 The District may, at its discretion, adjust the term of an individual permit to conform
288 with its inspection schedules of stationary sources or to aid in program
289 implementation.

290 12.3 Title V emissions fees: Applicability. Annual emissions fees are required from all
291 major sources subject to the operating permit requirements of Regulation 2.16.

292 12.3.1 Emissions fees shall be calculated based on the actual emissions of the following
293 pollutants: sulfur dioxide (SO₂), nitrogen oxides (NO_x), PM₁₀, PM condensables,
294 volatile organic compounds (VOCs), and hazardous air pollutants (HAPs), from
295 the stationary source for the calendar year (CY) preceding the start of the fiscal
296 year in which the fee is due.

297 12.3.2 Emissions fees shall be calculated by multiplying the total of all the single
298 pollutant actual emissions in tons per year (tpy) for CY 2013 by the fee rate of
299 \$50.10 per ton.

300 12.3.3 The total annual emissions fee shall be the sum of the single pollutant fees except
301 that:

302 12.3.3.1 No pollutant shall be counted in more than one single pollutant category.

[If adopted, this would amend the November 16, 2011, version of Regulation 2.08.]

[Approved by the Policy Committee on February 20, 2013, for Public Review]

[Changes to Draft #2 are redlined and double underlined]

12.3.3.2 No more than 4,000 tpy of the actual emissions of a single pollutant shall be counted toward the total emissions of a stationary source.

12.3.4 Emissions statements are required to be submitted annually in accordance with Regulation 1.06. If data for the preceding year are not submitted, the District shall determine the fees based on potential to emit.

12.4 Stationary sources ~~in Louisville Metro~~ shall pay a ~~filing n-application~~ fee to the District in accordance with Regulations 2.02, and 2.03, 2.08, 2.17, and 2.16.

12.5 ~~Application-Filing~~ fees shall be paid at the time an application is submitted to the District in accordance with this schedule.

12.6 An existing stationary source permitted pursuant to Regulation 2.03 shall not be required to pay ~~a filing n-application~~ fee if later authorized as an exempt stationary source pursuant to Regulation 2.02.

12.7 The fee for the initial issuance of a Registration shall be adjusted on a prorated basis to account for the unexpired term of any previously issued operating permits issued pursuant to Regulation 2.03 or 2.17.

12.8 “PSD pollutants” for purposes of this regulation mean PM, PM_{2.5}, PM₁₀, SO₂, NO_x, VOC, CO, Lead, Fluorides, Sulfuric Acid Mist, H₂S, Total Reduced Sulfur (including H₂S), Reduced Sulfur Compounds (including H₂S), Municipal Waste Combustor Acid Gases, Municipal Waste Combustor Metals, Municipal Waste Combustor Organics, Municipal Solid Waste Landfill Emissions, and GHGs.

12.9 Asbestos Demolition/Renovation projects.

12.9.1 All fees are assessed on each address of a multiple-dwelling project.

12.9.2 A single permit may include a combination of projects.

~~12.7.3 Notification fee required for all asbestos demolition/renovation projects for which the quantity involved is less than 260 linear feet on pipes and 160 square feet on other facility components, or 35 cubic feet of facility components if the length or area could not be measured previously~~

12.9.3 If the project involves both a material that is measured in linear feet and a different material that is measured in square feet, the number of linear feet and square feet shall be added to determine the applicable fee.

12.9.4 If approved by the District, the amount of material involved in a project may be determined in cubic feet. An increment shall be 330 cubic feet for friable asbestos.

12.9.5 An increment shall be 660 cubic feet for Category I and II asbestos projects.

12.9.6 The fee for a second and each subsequent revision to an issued permit for an asbestos demolition/renovation project shall be 10% of the fee for the initially issued permit.
